NATURE CLUB REPORT

NATURE'S TOUCH ECO BASED PRODUCT MAKING COMPETITION

Date: 04 September 2025

Day: Thursday

Time: 01:00 pm

No. of Beneficiaries: 80 students

Objective of the Event:

- The main objective of this competition is to promote environmental awareness and creativity among participants by encouraging them to design useful and innovative products from natural, recycled, or eco-friendly materials.
- A competition that encourages creativity while caring for our environment
- To instill the values of sustainability, waste reduction, and responsible consumption, while also showcasing how nature-inspired solutions can contribute to a greener and healthier future.
- To encourage participants to think green, act sustainable, and create eco-friendly alternatives that can replace harmful products in daily life.

Chief Guest: Dr. M Brindha
(Dean Affiliation and Accreditation MVJCE)

The Nature Club of MVJ College successfully conducted its much-awaited event “NATURE’S TOUCH ECO BASED PRODUCT MAKING COMPETITION” with the aim of promoting environmental and creativity among participants by encouraging them to design useful

and innovative products from natural, recycled, or eco-friendly materials and sustainability among students. The event witnessed active participation from students.

(STUDENTS PARTICIPATING IN PREPARATION OF THE PRODUCTS)

The program commenced at 01:00 PM with an enthusiastic participant. The competition is about creating innovative and useful products using eco-friendly, natural, or recycled materials. It gives participants a platform to showcase their creativity and concern for the environment by turning waste or nature-inspired resources into sustainable alternatives. The event encourages green thinking, environmental protection, and sustainable living practices, while also spreading awareness about the importance of reducing pollution and conserving nature.

Welcome Address by Afsha Banu of 2nd Year B. Com

At 2:30 PM, the official program was inaugurated in the seminar hall. The session opened with a warm welcome speech by Ms. Afsha Banu, a member of the Nature Club, who highlighted the objectives of the club and the importance of preserving nature. As a gesture of appreciation,

a token of love was presented to the esteemed guest Dr.M Brindha by the faculty coordinator of Nature club.

(PRESIDENTIAL ADDRESS BY VICE PRINCIPAL PROF. RAGHAVENDRA.)

This event is a reflection of our shared commitment to sustainability and environmental care. In today's world, where environmental challenges are increasing day by day, it is essential for young minds to think creatively and come up with eco-friendly alternatives. This competition provides the perfect platform to showcase how innovation can go hand in hand with responsibility towards nature.

(Judgement By Chief Guest and Ganana Sheeba Faculty of Computer Application)

(PARTICIPANTS PRESENTING ECO BASED PRODUCTS)

- Is truly an honor to witness the Nature Touch – Eco-Based Product Making Competition today. I must say, I am deeply impressed by the creativity, dedication, and awareness displayed by all the participants.
- Each product presented here was unique in its own way – from simple yet practical designs to innovative solutions that can genuinely be used in daily life. What stood out most to me was the way students transformed waste, natural, and recycled materials into

something purposeful and meaningful. This reflects not only their innovation but also their sense of responsibility towards the environment.

(CERTIFICATE DISTRIBUTION TO WINNERS BY CHIEF GUEST AND VICE PRINCIPAL)

(ALL THE PARTICIPANTS WITH THE CHIEF GUEST AND FACULTY MEMBERS)

Vote of Thanks

The event concluded with a Vote of Thanks delivered by assistant professors Gokul, who expressed gratitude to the guests, participants, and the organizing team for making this event a grand success

(Vote of thanks by assistant professors Gokul Jayan)

Nature Touch – Eco-Based Product Making Competition, let us take a moment to reflect on what we have witnessed.

This event has truly showcased the power of creativity blended with responsibility. The innovative eco-friendly products made by our participants are not just models, but messages — reminding us that sustainable living is possible if we think differently and act responsibly.

I extend my heartfelt congratulations to all the winners and participants for their remarkable efforts, and my sincere gratitude to our respected Chief Guest, Vice Principal, teachers, and organizers for making this program a grand success.

Let us carry forward the spirit of this competition into our daily lives, making small but meaningful changes to protect our planet. Together, we can build a greener, healthier, and more sustainable future.

Thank you all once again, and wishing you a wonderful day ahead.”

Innovate Today, Sustain Tomorrow.”

“Be creative, be eco-friendly, be the change.”

Outcome of the Event:

- Participants will gain awareness about environmental sustainability and the importance of reducing, reusing, and recycling.
- The event will generate creative, eco-friendly product ideas that can serve as practical alternatives to harmful or non-biodegradable items.

- Students will develop innovation, teamwork, and problem-solving skills by working with natural and recyclable materials.
- The competition will foster a sense of responsibility towards nature and motivate participants to adopt eco-conscious practices in daily life.
- A collection of unique and sustainable products will be showcased, inspiring others to follow green initiatives.
